Height Guide, approx - 4' 7" > 5' 1" / 140 - 155cm

Height and age guides vary based on childrens confidence and we recommend standover height as a base for sizing if your child has not had a bike before that can be used as guidance for the next bike.

Rider needs 3/4" - 1" or 20-25mm clearance when standing over centre of the frame in normal footwear. For fitting a child to the largest suitable model, standover height (3) plus up to 1" or 20-25mm should equal the child's inside leg in normal footwear. Lowest saddle height is close to standover height.
